EXCEL CLASSES 2026

Welcome to the EPAC Excel Stream, the perfect next step for dancers who are ready to grow, refine their skills, and take their training to the next level.

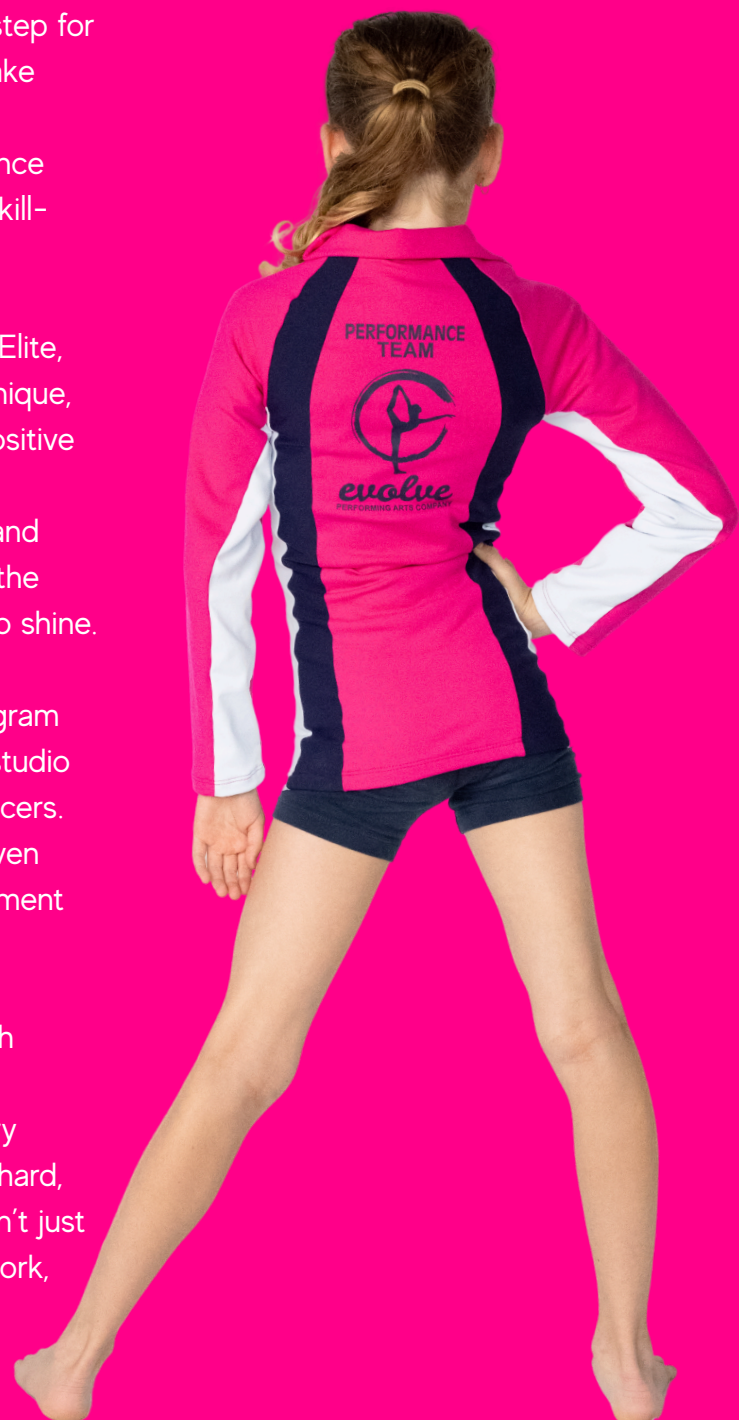

The Excel Stream is designed for students who love dance and want to challenge themselves with more focused, skill-based training, while still maintaining a healthy balance between dance, school, and life outside the studio.

This stream bridges the gap between Recreational and Elite, giving dancers the opportunity to strengthen their technique, explore new styles, and perform with confidence in a positive and supportive environment.

The Excel experience is built on commitment, passion, and progress. It's for dancers who want more, more time in the studio, more personal growth, and more opportunities to shine.

We're also thrilled to continue expanding our Excel program offerings in 2026. Strengthening this stream within our studio and elevate the experience for our dedicated Excel dancers. Our goal is to continue evolving this program to offer even greater opportunities for growth, creativity, and achievement for every dancer who's ready for more.

Our experienced teachers are dedicated to helping each student reach their potential, providing structure, encouragement, and professional-level guidance in every class. Excel dancers are encouraged to set goals, work hard, and celebrate every milestone – learning that growth isn't just about perfecting steps, but about perseverance, teamwork, and a genuine love for what they do.

EXPECTATIONS & COMMITMENT

Excel dancers are expected to:

- Attend all scheduled classes regularly.
- Arrive on time and prepared to work.
- Demonstrate positive attitude, teamwork, and respect.
- Commit to scheduled performances and competitions throughout the year.
- All excel students must enrol in a minimum of 4 classes per week (excluding 6/u)

Invitations to the Excel Stream are based on commitment and passion – not just ability.

Every student has the opportunity to grow if they show dedication and love for what they do.

HOW TO JOIN EXCEL

There are two ways to join the EPAC Excel Stream, by invitation or expression of interest.

By Invitation

Students who consistently demonstrate commitment, focus, and a positive attitude in their current classes may be invited by our teaching team to join the Excel Stream. Invitations are based on each dancer's passion for learning, effort in class, and readiness for more structured training – not just technical ability.

By Expression of Interest

Students who would like to challenge themselves further are encouraged to submit an Expression of Interest to our admin team. Our team will review your current class participation, training load, and goals, and may arrange a short assessment or discussion to determine the most suitable placement. The Excel Stream is open to all dancers who show enthusiasm, dedication, and a love for dance. Whether you're invited or express your interest, we welcome students who are ready to take the next step in their dance journey and continue growing within our supportive EPAC community.

AGE GROUPS

Students are placed into classes based on the age they are on the 1/1 that calendar year, ensuring consistency across all training and performance levels.

This system also aligns with competition age guidelines, helping dancers prepare and perform confidently within their correct divisions.

Classes within the Excel Stream are offered in the following age groups:

- 6/u
- 8/u
- 10/u
- 12/u
- 14/u
- Open age

Class placement may also take into account a dancer's experience, confidence, and teacher recommendation to ensure they're in an environment that supports both growth and enjoyment.
